7430 LAPTOP OR 2-IN-1 7440 LAPTOP OR 2-IN-1 7640 LAPTOP

Our 7000 series offers a broad range of premium features that provide an amazing screen experience, intelligent performance, and built-in security and privacy.

These laptops and 2-in-1s are designed for team leaders and managers that are driven to connect teams and need high performance with seamless collaboration and connectivity for at-the-desk or on-the-go versatility.

Connectors: Motivation

Are quick to respond and are the center of communication

....

Are twice as efficient multitaskers

....

Assist in the sharing and connecting of people and information

Connectors: Challenges

Need to constantly listen in on meetings

....

Have to find a balance between virtual work sessions and traditional in-person meetings

....

Need twice the interoperability for docking and peripherals
